

## Sentinel Drive Installation Guide for Android

### Installation Methods

The following table explains how to install Sentinel Drive based on your type of device and deployment:

Download and Installation Method	Supported OS
<p><b>Android Devices – Sentinel Drive 4.3.0 Production</b></p> <p><a href="https://dev.sentinelfm.com/hos/android.htm">https://dev.sentinelfm.com/hos/android.htm</a></p> <p>This file, which can be downloaded from the link above, is suitable for the following:</p> <ul style="list-style-type: none"><li>• Enterprise distributions. The app can be installed using mobile device management (MDM) tools such as AirWatch.</li><li>• Production deployment for BSM customers.</li><li>• Demo mode for BSM employees.</li></ul> <p><b>Note:</b> Installing from a downloaded file, such as the one in the above link, requires specific authorization (to run applications from unauthorized sources).</p>	4.1 or later (Jelly Bean)
<p><b>Android Devices – Sentinel Drive from the Play Store</b></p> <p>Sentinel Drive can be downloaded and installed from the Google Play Store.</p> <p>This is suitable if you allow your drivers or IT team to download apps directly from the Play Store.</p> <p>In the Play Store, simply search for ‘sentineldrive’ and then install it as you would any other app.</p>	4.1 or later (Jelly Bean)
<p><b>MDTs – Sentinel Drive</b></p> <p>MDT devices ship with Sentinel Drive pre-installed. No action is needed.</p>	Not applicable
